RE: Community Service

The Haworth Public School recognizes the importance and value of Service Learning. In 2002 our school made Community Service a requirement for graduation for the eighth grade. All eighth grade students must engage in a minimum of six hours of community service from September 5, 2009 to April 1, 2010.

All services performed must be accompanied by a service slip that has been signed by a program supervisor and parent. Service slips are available in my office. Students must not receive payment for services and will not be allowed to perform services in the school building. Please also note that students will not be permitted to help friends and family.

The Guidance office will hold folders for students to record their hours. Throughout the year during homeroom I will inform students of community service programs.

If you have any questions, please do not hesitate to email me at Sasson@nvnet.org or call me at (201) 384 - 5526.

Thank you!
